PROFESSIONAL SUMMARY

Detail-oriented frontend developer with hands-on internship experience in a digital marketing agency, building responsive lead-generation microsites in a professional Agile (Scrum) environment. Seeking an **Entry-Level Frontend Developer or Frontend Developer Intern** role, **available to start immediately and flexible with internship duration,** to apply my skills and contribute meaningfully to real-world projects with a strong aspiration to grow further as a developer. An adaptable team player with a strong commitment to problem-solving and eagerness to learn.

WORK EXPERIENCE

Frontend Developer Intern | Digital Symphony Sep 2025 - Dec 2025

- Developed 2 responsive lead-generation microsites and multi-page websites using **Tailwind CSS**, implementing reusable and scalable layouts for a clean and consistent UI across devices
- Created a **React.js** lead-generation microsite using reusable component-based architecture and state management
- Designed an admin dashboard using **Bootstrap** with structured and consistent layouts
- Built a **WordPress** website using **Elementor**, integrating custom CSS and JavaScript using **WPCode**
- Followed **Agile (Scrum)** methodology to manage and deliver **sprint-based** projects efficiently
- Leveraged **ClickUp**, **Jira**, **FileZilla**, and **Slack** for task and file management and team collaboration

EDUCATION

Bachelor of Information Technology (Hons) | City University Malaysia Sep 2022 - Dec 2025

CGPA: 3.78 | Dean's List (Semesters 3, 5, 6 & 8)

Programme completed | Convocation: 2027

SKILLS

Frontend: HTML, CSS, JavaScript

Database: MySQL

CSS Frameworks: Tailwind CSS, Bootstrap

Library: React.js

Content Management System (CMS): WordPress

Tools: Git, GitHub, Visual Studio Code

Methodology: Agile (Scrum)

PROJECTS

ResumeIQ – Resume Optimization SaaS Marketing Landing Page

Tech Stack: React.js, React Hook Form, Tailwind CSS, Swiper.js, Framer Motion, Random User API

Live Site | **GitHub**

- Built a responsive SaaS marketing landing page with **React.js** and **Tailwind CSS**, using reusable components and interactive UI sections with state management.
- Integrated dynamic testimonials via **the Random User API**, added form validation with **React Hook Form**, and implemented smooth animations using **Framer Motion** to enhance user experience.

Verbalify – Language Learning Platform SaaS Marketing Multi-Page Website

Tech Stack: React.js, React Router, React Hook Form, React Helmet Async, Tailwind CSS, Swiper.js, Framer Motion, Random User API

Live Site | **GitHub**

- Built a responsive multi-page SaaS marketing website using **React.js** and **React Router** for structured navigation.
- Implemented dynamic SEO meta tags with **React Helmet Async**, form validation with **React Hook Form**, a testimonial carousel with **Swiper.js** powered by **Random User API** data, and smooth UI animations using **Framer Motion**.

GlucoPredictor (Final Year Project) – Diabetes Risk Assessment System with Rule/AI-Based Health Tips Web Application.

Tech Stack: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, phpMyAdmin, Python, Jupyter Notebook

GitHub

- Built a responsive web application using **HTML, CSS, JavaScript, Bootstrap,** and **PHP**, with user authentication, bilingual support, and **MySQL** database management through **phpMyAdmin**.
- Trained an **XGBoost** model in **Python** using **Jupyter Notebook** for predictions and integrated AI-based health tips using a **PHP** and **Python** backend.

Spice Haven – Luxury Fine Dining Restaurant WordPress Website

Tech Stack: WordPress, Elementor, WPCode

Live Site | **GitHub**

- Built a fictional luxury fine dining restaurant website using **WordPress** and **Elementor**.
- Enhanced it with custom CSS and JavaScript via **WPCode**, focusing on premium UI design, responsive layouts, and modern branding.

AWARDS AND ACHIEVEMENTS

- **Excellent Project Award (GlucoPredictor)**, Final Year Project Presentation | City University Malaysia – April 2025.
